LEADING THE WAY IN SUSTAINABLE TECHNOLOGY

Established in 2003 by Curtin University Emeritus Professor Chem Nayar, Canning Vale-based Regen Power is a National company providing renewable energy products and services to residential, commercial and off-grid mining and remote community markets, with a vision to create affordable access to power through sustainable solutions and innovative technologies.

Regen Power CEO, Professor ChemNayar is one of WA's most outstanding engineers, dedicating almost four decades to advancing the clean energy industry. Arriving in WA as a PhD scholar in 1982, Professor Nayar's work has inspired local engineers and brought solar energy to more than 30,000 WA homes and businesses. He has eight inventions to his name, published over

200 research papers, and delivered over 40 keynote speeches in Australia and overseas. He has supervised 40 PhD and Masters degree students who now make valuable contributions to the sustainable energy industry. Professor Nayar was conferred the prestigious Sustainable Energy Association Awards' Ambassador Award in 2011. Earlier this year, Professor Nayar was selected as a WA Finalist, for Australian of the Year 2021 and also nominated as finalist of Western Australian of the year 2021. Winner will be announced during WA day celebration on 4th June 2021.

Regen Power's contribution has been instrumental in commercialising renewable energy power systems to regular households at affordable prices.

Key components of its success are its

Professor Chem Nayar and Nikhil Jayaraj

quality products and services, affordable pricing, ongoing innovation, and its futuristic approach.

Ranked as the 55th-fastest growing company in Australia in the 2020 Australian Financial Review Fast 100 list, Regen Power has won various awards and nods for sustainable development and product development, vouching for its existence as a reputable brand in the solar power business of WA. Consecutively for 2 years, Financial Times listed Regen Power among the Top 500 Asia-Pacific High-Growth Companies, with the company ranked at 209 (2020) & 326th (2021).

A major achievement for the company took place in 2017-18, when it designed and commissioned the largest floating power plant in India. Another came

the same year, when Regen Power was appointed as owner's engineer for a US\$50 million, 50 megawatt ground-mounted solar farm project in central Vietnam

Regen Power Managing Director Nikhil Jayaraj who is the winner of 40 Under 40 awards 2020 quotes that "With a client base over 30,000, and exclusive agreements with major suppliers like Tesla, Regen Power is confident in capturing the future market."
